

# **Youth and Adult Correctional Agency**

---

The Youth and Adult Correctional Agency's mission is to improve public safety through effective leadership of its subordinate entities in the juvenile and adult correctional setting. By employing successful crime prevention and recidivism reduction strategies, providing timely intervention to at risk populations, improving the quality of services provided, and through efforts to ensure successful integration into society, the Agency's objective is to end the causes and tragic effects of crime, violence, and victimization in our communities.

## 5240 California Department of Corrections

The mission of the California Department of Corrections (CDC) is the control, care, and treatment of men and women who have been convicted of serious crimes, or those admitted to the civil narcotic program, and entrusted to the Department's Institution, Health Care Services, Inmate Education and Community Correctional Programs.

CDC is organized into five programs: Institution Program, Health Care Services Program, Inmate Education Program, Community Correctional Program, and Central Administration Program. Within the Institution Program are 33 operating correctional institutions, 11 of these having reception centers. The program is also responsible for 12 Community Correctional Facilities. Included within the Institution Program budget are the Narcotic Addict Evaluation Authority, the Richard A. McGee Training Center, and the field administration organization, which directly support institution activities.

The Health Care Services Program provides mandated health care to California's inmate population, and is comprised of the Medical, Dental, and Psychiatric Services sections at the institutions, as well as the health care services division at headquarters.

The Inmate Education Program operates one of the largest accredited adult correctional education systems in the world. It provides academic development, vocational training, life skill development, law library services, and recreation programs throughout the Department's 33 Institutions.

The Community Correctional Program is a statewide operation that includes field offices, Community Correctional Reentry Centers, Restitution Centers, Prisoner Mother programs, and a Substance Abuse program.

The Administration Program is organized into three divisions: Executive, Support Services, and Field Operations.

### MAJOR PROGRAM CHANGES

- Population - Prison inmate average daily population is projected to decrease from 163,019 in 2004-05 to 162,755 in 2005-06, a decrease of 264 inmates, or 0.2 percent. The difference is due to the increasing impact of the parole reforms included in the 2003 and 2004 Budget Acts. However, the current projections are higher than the 2004 Budget Act projected average daily inmate population due to increased new admissions from court and parole violators returned with new terms, as well as delays in implementation of the parole reforms from the 2003 and 2004 Budget Acts. The average daily parole population is projected to decrease from 103,492 in 2004-05 to 96,602 in 2005-06, a decrease of 6,890 or 6.7 percent. The parole population is projected to be lower due to ongoing implementation of parole policies and practices designed to ensure public safety and be consistent with current law. The costs associated with the population changes are \$207.5 million in 2004-05 and \$280.2 million in 2005-06. In 2005-06, incarceration services will be provided through 33 institutions, 11 reception centers, 40 camps, and 12 community correctional facilities.
- Inmate Medical Services Program Implementation - The Administration is committed to providing quality inmate medical services and continued compliance with the requirements of the Plata case action lawsuit. As such, the Budget includes an increase of \$30.1 million General Fund, which is designed to improve the delivery of medical care to inmates and to ensure compliance with the court order.
- Post Relief - The Administration has demonstrated its support of the Department of Corrections' base mission through various budget augmentations related to structural operating costs. This Budget continues this effort by providing funding of \$9.8 million General Fund to enable the Department to provide the necessary training for posted positions and medical technical assistants and adjust sick time costs to reflect anticipated usage rates.

### **PROGRAM DESCRIPTIONS (Program Objectives Statement)**

#### **21 INSTITUTION PROGRAM**

The California Department of Corrections (CDC) is required by statute to accept convicted felons and civilly committed nonfelon narcotic addicts from California courts when their sentence is imprisonment in a State correctional facility. It is the Department's responsibility to provide safe and secure detention facilities to protect society from further criminal activities and to provide necessary services such as feeding, clothing, medical care, psychiatric and counseling services, and training.

Within the Institution Program, there are 33 operating correctional institutions, 11 of these having reception centers. The program is also responsible for 12 Community Correctional facilities and 40 conservation camps, which perform public conservation projects including, but not limited to, forest fire prevention, watershed management, and soil conservation. Included within the Institution Program budget are Narcotic Addict Evaluation Authority, the Richard A. McGee Training Center, and the field administration organization, which directly support institution activities.

#### **22 HEALTH CARE SERVICES PROGRAM**

The mission of the Health Care Services Program is to provide medical, dental, and mental health care to the inmate population statewide consistent with adopted standards for quality and scope of services within a custodial environment. The Program strives to achieve this mission by providing cost-effective, timely, and competent care. Additionally, the Program promotes inmate responsibility for their health.

The Health Care Services Program is in the process of implementing a multidisciplinary, multiple service statewide health care delivery system. The delivery system provides the inmates with timely access to staff, facilities, equipment, and procedures to diagnose and treat medical, dental, and mental health problems. Standardized screening and comprehensive mental health evaluations, licensed 24-hour medical care, adequate and timely mental health crisis care, and ongoing medical, dental, and mental health outpatient treatment are the basic components of the Health Care Services Program. The Program also provides standardized infectious disease control measures throughout the prison system to mitigate the transmission of infectious diseases among inmates, staff, and the community.

The Program currently operates four licensed hospitals and a skilled nursing facility for female inmates. The Program also operates ten Correctional Treatment Centers (CTCs), with an additional three CTCs pending licensure, and seven more under construction. In addition, the Department operates a hospice care wing at the California Medical Facility and an HIV unit at the California Institution for Men.

#### **24 INMATE EDUCATION PROGRAM**

The objective of the Inmate Education Program is to contribute to public safety by increasing the rate and degree of successful reintegration and release to society of offenders released from State prison. It also ensures that CDC educational programs provide inmates with an opportunity for self-improvement through acquiring life skills and career training.

In addition to its General Fund appropriation, this program augments its budget through reimbursements and federal funds, including the Workforce Investment Act, the Elementary and Secondary Education Act, the Vocational and Technical Education Act, and the Incarcerated Youth Offenders Program.

#### **31 COMMUNITY CORRECTIONAL PROGRAM**

The primary objective of the Community Correctional Program, consistent with the public's safety, is to increase the rate and degree of successful reintegration, and release to society, of offenders released from State prison. Providing offenders with supervision, surveillance, apprehension, direct support services, and community referral services attains this objective.

The CDC is responsible for supervision of felons who have been paroled, as well as provision of various services to parolees. Differential supervision is based on case factors related to the offender's propensity for violence and service needs. When required case assessments indicate, selected parolees will be placed in a higher supervision category intended to prevent, detect, or interrupt behavior likely to endanger the community or themselves. As a parolee situation changes, scheduled reassessments will result in reclassification from one level of supervision to another.

The Community Correctional Program oversees a variety of rehabilitation and assistance programs designed to promote successful reintegration of parolees, while protecting public safety. These programs include Substance Abuse Treatment and Control Units, Halfway Back facilities, Police and Corrections Teams, and the Preventing Parolee Crime Program.

The Community Correctional Program also provides mental health services/treatments to parolees through the Parole Outpatient Clinics. The objectives of this treatment are to ensure public safety and to reduce recidivism. In keeping with statutory intent, providing treatment and services to parolees that facilitate their reintegration into the community and reduce recidivism, has proven to be an effective strategy for reducing State costs.

#### **41 CENTRAL ADMINISTRATION**

The objective of the Central Administration Program is to provide executive and administrative services to assure the overall success of the Department's Institutions, Health Care Services, Inmate Education, and Community Correctional Programs. This program consists of the Executive Division, Support Services, and Field Operations.

The Executive Division is responsible for the overall management of the Department and includes the Director's Office, as well as the Office of the Ombudsman, the Office of Investigative Services, the Office of Civil Rights, and the Office of Victim

Services.

The Support Services divisions and offices include Administrative Services, Legal Affairs, Facilities Management, Communications, Information Systems, Policy and Evaluation, Financial Services, and Legislative Liaison.

Field Operations consists of the Office of Substance Abuse Programs.

**CAPITAL OUTLAY**

The California Department of Corrections (CDC) maintains 32 institutions statewide housing approximately 165,000 inmates. In addition, the construction of a new institution (Delano II) is nearing completion and is expected to be occupied June 2005. The CDC also operates 40 fire camps and an extensive correctional training center responsible for training all new entry-level correctional officers as well as hosting the Parole Agent Academy.

In addition, the CDC operates or contracts for the operation of approximately 40 public or private community based facilities statewide including 20 community correctional reentry centers; 12 community correctional facilities; 5 prisoner/mother facilities, leased jail beds at three county jails. There are 182 parole units and sub-units and 4 parole outpatient clinics. At its current size, CDC's infrastructure includes over 3,000 structures that encompass over 37 million square feet of building space on over 25,000 acres of land statewide.

The following major budget adjustments are proposed for 2005-06:

- The Governor's Budget proposes \$28.9 million lease revenue bonds for the construction of a Heating, Ventilation, and Air Conditioning system and associated repairs at Chuckawalla Valley State Prison. This project is necessary to alleviate critical infrastructure deficiencies posed by inadequate cooling and ventilation, and deteriorating buildings.
- The Governor's Budget proposes \$12.3 million General Fund for 13 major capital outlay projects at various institutions, including \$6 million for wastewater projects at various institutions, \$3 million for security projects at two institutions, and \$3 million for projects to improve water supply at three institutions.
- The Governor's Budget proposes \$6.0 million General Fund for approximately 20 minor capital outlay projects and budget packages.

**5430 Board of Corrections**

The Board of Corrections works in partnership with city and county officials to develop and maintain standards for the construction and operation of local jails and juvenile detention facilities, as well as standards for the employment and training of local corrections and probation personnel, and regularly assists local correctional facilities and programs in their efforts to remain in compliance with these standards. The Board also administers the allocation of funds to counties for the federal Violent Offender Incarceration/Truth-in-Sentencing Grant Program, the Juvenile Hall/Camp Restoration Program, the Mentally Ill Offender Crime Reduction Grant Program, and the federal Juvenile Justice and Delinquency Prevention Grant Program. The Juvenile Justice Crime Prevention Act requires each county to have Board of Corrections approval of their respective comprehensive multi-agency juvenile justice plans, which examine graduated sanctions for at-risk youth, prior to accessing funds under the Act. The Board conducts special studies in penology and corrections relative to the public safety of California's communities.

The Board is composed of fifteen members, twelve appointed by the Governor and confirmed by the Senate, and representing specific elements of local juvenile and adult criminal justice systems and the public. Statutory members are the Secretary of the Youth and Adult Correctional Agency, who acts as Chair of the Board, and the directors of the Departments of Corrections and Youth Authority. The Board meets bimonthly and all meetings are open to the public.

### MAJOR PROGRAM CHANGES

- Juvenile Justice Funding - The Governor's Budget includes the restoration of \$201.4 million in federal Temporary Assistance for Needy Families funding for county youth probation programs, these funds are provided as part of the Department of Social Services budget. In addition, the Board of Corrections will be responsible for distributing \$25 million General Fund (\$24.7 million local assistance, \$250,000 state operations) previously provided through the Juvenile Justice Crime Prevention Program, providing a total of \$226.4 million in State funding for local juvenile justice activities. The remaining funding associated with the Juvenile Justice Crime Prevention Program will be eliminated, resulting in a General Fund savings of \$75 million. The final distribution of this savings will be determined by the outcome of negotiations related to juvenile justice reforms proposed by the Administration, and could result in changes in funding for the Board of Corrections and the Youth Authority.

### PROGRAM DESCRIPTIONS (Program Objectives Statement)

#### 11 CORRECTIONS PLANNING AND PROGRAMS DIVISION

The Corrections Planning and Programs Division (CPPD) provides leadership in the development of programs and program planning efforts that focus on local juvenile and adult correctional effectiveness, administers federal and State grants that support the collaborative planning efforts, provides technical assistance and training in planning and program implementation, and conducts research and evaluations. The CPPD assists counties, through the Juvenile Justice Crime Prevention Act Program, in developing and implementing comprehensive multi-agency juvenile justice plans that include programs with demonstrated effectiveness for at-risk youth that focus on crime prevention, intervention, suppression, and incapacitation. The CPPD fosters collaborative, innovative, and integrative approaches in partnership with State and local governments, as well as the private sector and private/nonprofit service providers, working together to achieve continued improvement in the conditions of California's delivery of programs to juveniles and adults.

#### 14 FACILITIES STANDARDS AND OPERATIONS DIVISION

The Facilities Standards and Operations Division sets minimum standards for juvenile and adult detention facilities and assists local agencies in solving problems that would prevent them from meeting the standards. The Division also administers grant funds to maximize the protection of the public while assuring safety of detention staff and offenders in local custody, and is responsible for administering the Jails Removal/Compliance Monitoring Program.

#### 21 STANDARDS AND TRAINING FOR CORRECTIONS DIVISION

The Standards and Training for Corrections Division works with local corrections officials to ensure the performance of complex tasks by local corrections professionals. The Division engages the local corrections community in the establishment of minimum standards for personnel selection and training. It administers a seven-step selection criteria system in partnership with local agencies that complies with key federal and State guidelines. It also administers a statewide training course certification process designed to ensure the competence of local corrections professionals that incorporates a coordinated delivery system that includes public, private, and private/nonprofit training providers in the delivery of training based on competition among the sectors for participation.

#### 50 JUVENILE JUSTICE GRANTS PROGRAM

\* Dollars in thousands, except in Salary Range.

**5430 Board of Corrections - Continued**

The Juvenile Justice Grants Program (JJGP) operates under the CPPD and is designated by the federal Department of Justice, Office of Juvenile Justice and Delinquency Prevention as the responsible State planning agency to administer federal juvenile justice and delinquency prevention funds authorized by Congress and designated for California. The program's mission is to provide State leadership, coordination, and resources to develop, implement, and support effective methods to prevent and respond to juvenile delinquency. The JJGP works closely with local officials and communities to ensure the development and implementation of comprehensive strategies for preventing and effectively responding to juvenile crime by engaging local juvenile and adult stakeholders in the development of programs leading to the improvement of conditions and the delivery of programs for juveniles in California. This program provides support to the California criminal justice system through awards of federal grant funds to public and private agencies for public safety and juvenile justice projects.

**98 STATE-MANDATED LOCAL PROGRAMS**

The objective of this program is to provide funding, pursuant to Section 6 of Article XIII B of the California Constitution, to reimburse local entities for costs they incur in complying with certain State-mandated local programs.

**5440 Board of Prison Terms**

The Board of Prison Terms is California's adult parole authority and sets the terms and conditions of parole. The Board conducts parole consideration hearings for eligible inmates serving life sentences and parolees charged with violating parole. The Board issues warrants and determines whether parolees should be considered for discharge from parole. Hearings are also conducted for mentally disordered offenders, sexually violent predators, and serious offenders.

In addition, at the request of the Governor, the Board investigates applications and forwards recommendations for pardons and commutations of sentence, including those involving the death penalty. It also has the discretion to recommend to the court that a prisoner be re-sentenced in situations calling for compassionate release.

**5450 Youthful Offender Parole Board**

The Youthful Offender Parole Board was the paroling authority for young persons committed by the courts to the Department of the Youth Authority. The Board was composed of seven members appointed by the Governor and confirmed by the Senate for terms of four years each. The powers and duties of the Board included recommendations for treatment programs for wards committed to the Youth Authority, discharge of commitments, orders to parole and conditions thereof, revocation or suspension of parole, and the return of non-resident persons to the jurisdiction of the state of legal residence.

Effective January 1, 2004, the Youthful Offender Parole Board was eliminated and its functions were transferred to the Youth Authority Board.

### MAJOR PROGRAM CHANGES

- **Institution and Parole Population** - The Youth Authority projects an institution population of 3,330 on June 30, 2006, which is a decrease of 100 wards from the anticipated population of 3,430 on June 30, 2005. The parole caseload is projected to be 3,450 by June 30, 2006, which is a decrease of 340 cases from an estimated caseload of 3,790 on June 30, 2005. The net effect of these population changes in fiscal year 2004-05 is a decrease of \$1.6 million (a decrease in Reimbursements of \$9.9 million, a decrease in General Fund [Prop 98] of \$0.3 million, and an increase in General Fund [Non-Prop 98] of \$8.6 million). In fiscal year 2005-06, the net effect will be a decrease of \$11.5 million (a decrease in Reimbursements of \$11.7 million, a decrease in General Fund [Prop 98] of \$1.4 million, and an increase in General Fund [Non-Prop 98] of \$1.6 million). As part of the Juvenile Justice Reform proposal, the Administration is evaluating options to shift some of this population to locals.
- **Conditions of Confinement and Treatment** - The Administration continues its efforts to address issues related to the conditions of confinement and treatment of wards at the Youth Authority, resulting from the Farrell v. Allen lawsuit. The final Remedial Plan and implementation schedule are currently in the negotiation and approval process. Details of this plan and associated funding needs will be provided as part of the May Revision.

### PROGRAM DESCRIPTIONS (Program Objectives Statement)

#### 20 INSTITUTIONS AND CAMPS

The Department of the Youth Authority accepts commitments from California courts provided that the person to be committed was under 21 years of age at the time the offense was committed, can materially benefit from institutional programs and there are adequate facilities available to provide that care. The objectives of the Institutions and Camps program are to reduce the incidence and severity of delinquent and criminal behavior of juveniles and youthful offenders under Youth Authority jurisdictions in institutions and camps, and prepare youthful offenders for release and success on parole. These objectives are achieved by accurately evaluating referrals and commitments and providing appropriate care, custody, and treatment consistent with offender needs.

The Department operates eight institutions and two conservation camps, one of which is operated jointly with the Department of Forestry and Fire Prevention.

#### 20.10-Management

The Management program provides overall management, planning, policy development and monitoring to increase the efficiency and effectiveness of all institutions and camps programs.

#### 20.20-Treatment Services

In keeping with the Department's mandate for, and commitment to, offender accountability and public safety, each youthful offender is assigned to programs based on his/her individual needs. The casework process begins at the time of referral and continues throughout the institutional stay. The process includes diagnostic studies, program assignment, objective setting and progress evaluation, and parole planning. There are a number of counseling and treatment programs available to youthful offenders including, general population programs, mental health programs (intensive treatment, specialized counseling, sex offender treatment, special behavior treatment, correctional treatment centers, an intermediate care facility program and general population out-patient services), substance abuse treatment programs, camp programs, and Free Venture and other work employability programs. In addition, the Department continues to participate in the federally sponsored Foster Grandparent Program in which senior citizens come into the living units and classrooms to assist the youthful offenders in their educational goals and to act as role models and mentors.

#### 20.30-Support Services

The Support Services Program has responsibility for the operation of safe and secure facilities, the routine day-to-day operations of institutions and camps and providing youthful offenders with necessary services such as medical care, religious services, food and clothing. In addition, Support Services includes functions such as staff training, intake and court services, ward master files, population management, accounting services, personnel services and facility maintenance.

#### 30 PAROLE SERVICES AND COMMUNITY CORRECTIONS

Parole Services and Community Corrections provides public safety through the monitoring of parole conditions, assisting offenders in addressing their specific treatment needs, and collaborating with local agencies engaged in primary and secondary rehabilitation efforts.

## 5460 Department of the Youth Authority - Continued

### 30.10-Parole Services

The objective of Parole Services is to assist parolees to successfully reintegrate within the community after release to parole. Parole Services staff implement structured and intensive parolee supervision through enforcement of conditions of parole, crisis intervention, supportive services, specialized services, intervention and corrective action, and temporary detention sanctions. Other major Parole Services activities include transitional aftercare services for specific high-risk offenders, including mental health, sex offender and substance abuse services; information sessions for community groups and new Youth Authority commitments and collaboration with local judiciary systems, probation departments, law enforcement agencies, schools, community-based organizations and government entities.

### 30.20-Prevention and Victim Services

The Prevention and Victim Services (PVS) Program administers local assistance funds for youth centers and shelters, and oversees prevention programs such as the Proud Parenting Program (formerly known as Young Men as Fathers). The PVS provides services to victims of offenders committed to the Youth Authority. This includes advocating for victims through legislation and representation, providing notification, restitution collection, preparation and accompaniment for parole hearings to victims, training staff on victims legal rights, and providing restorative justice and victims' awareness education for offenders. The PVS also provides oversight and leadership for Department-wide efforts in the areas of prevention, intervention, and suppression of gang activity. This includes gang management efforts within the Youth Authority institutions, support for gang disassociation within the parole population, assistance in community gang prevention efforts, and Volunteers in Parole.

## 40 EDUCATION SERVICES

Pursuant to Chapter 280, Statutes of 1996, the Education Services Branch of the Youth Authority operates as a Correctional Education Authority with many of the same functions and delivery mechanisms of a local school district. The objective of Education Services in the Youth Authority is to reduce the numbers of individuals who re-offend by providing basic academic and vocational education and preparing them with acceptable socialization and employment skills, in a school district model that adheres to the same educational standards as public school districts. All high schools are either accredited or pursuing accreditation by the Western Association of Schools and Colleges, the same body accredits all public high schools. All individuals must obtain a high school diploma or equivalency in order to be recommended for parole. The focus of this objective is on changing the values that have led to criminal activities to values that promote acceptable citizenship and pursuit of life-long learning.

Education programs are provided in camps and parole offices, in addition to the high schools located in each of the Department's institutions. Most interaction is provided in typical classroom settings. However, some instruction is delivered in special settings designed to serve individuals in special confinement or programs.

Individual annual goals are established for each high school by a multidisciplinary group of staff who represent education, security, counseling, medical, and support services. An external group conducts an annual assessment to determine the progress made in achieving these short-term goals.

## 45 YOUTH AUTHORITY BOARD

The Youth Authority Board is the paroling authority for young persons committed by the courts to the Department of the Youth Authority. The Board was established in 1941 by the Legislature as the Youth Authority Board. The Board separated from the Department of the Youth Authority on January 1, 1980 and was renamed the Youthful Offender Parole Board.

Effective January 1, 2004, Chapter 4, Statutes of 2003, abolished the Youthful Offender Parole Board and created the Youth Authority Board as an autonomous parole decision authority within the Department of the Youth Authority. The Youth Authority Board retained authority to determine readiness and release to parole, discharge and revocation of parole.

The protection of the public is the primary responsibility of the Youth Authority Board. All juvenile offenders will eventually return to society, consequently, it is imperative that their time spent in the Department of the Youth Authority prepare them for a productive and crime free life upon release. The treatment, training and education provided are designed to benefit the ward, and in so doing foster the interest of public safety.

## 50 ADMINISTRATION

The objective of the Administration Program is to provide executive and administrative services to the Department's Institutions and Camps, Parole Services and Community Corrections, Education Programs, and the Youth Authority Board. This program consists of the Office of the Director, Executive Branch, and Administrative Services Branch. The Executive Branch is responsible for policy development and implementation of programs including equal employment opportunity, legal, legislation, program compliance, public affairs, information technology, and labor relations. The Administrative Services Branch is responsible for facilities planning, financial management, personnel, training, and research. Additionally, the Branch provides administrative services to the Youth and Adult Correctional Agency and the Commission on Correctional Peace Officers' Standard and Training.

**CAPITAL OUTLAY**

The California Youth Authority's infrastructure consists of 25 facilities that cover more than 3.4 million square feet of building space on nearly 2,000 acres of land. These facilities include eight Youth Correctional Facilities and one Youth Conservation Camp where more than 3,500 serious juvenile offenders are housed. The remaining 16 facilities are parole offices through which the California Youth Authority supervises about 4,000 youthful offender parolees.

The following major budget adjustments are proposed for 2005-06:

- The Governor's Budget proposes \$2.8 million General Fund for approximately nine minor capital outlay projects and budget packages.

\* Dollars in thousands, except in Salary Range.

## 5460 Department of the Youth Authority - Continued

- The Governor's Budget proposes \$854,000 General Fund to initiate two projects to address critical infrastructure deficiencies. One project is to provide fire protection sprinkler systems at various institutions that currently have no fire sprinklers. The other project is to replace a blast chiller and its badly deteriorated floor.
